

Panel Pads & Shims

Panel Pads/Chain Guards

Item#s

004-920– Single Faced Panel Pad – 200/case

004-921– Double Faced Panel Pad – 125/case

004-922– Hanger Pads – 100/case

004-923– Chain Guards – 125/case

Panel Pads were developed to eliminate discoloration, breaking, cracking and chipping of architectural precast concrete. The air-vent design allows air to circulate against the face of the panel. There are three styles: Single Faced, Double Faced and Hanger Pads. Single and Double Faced are used to store panels flat. Hanger Pads are used to store panels vertically. They are crush proof and support loads up to 20 tons. Chain Guards are used during the transport of the panels. They cushion the chains and keep them from slipping over the panel face.

Plastic Shims

Item#s

004-900– 2x2x1/16 – 2000/case

004-901– 2x2x1/8 – 2000/case

004-902– 2x2x1/4 – 1000/case

004-903– 2x2x1/2 – 500/case

004-904– 3x3x1/16 – 1000/case

004-905– 3x3x1/8 – 1000/case

004-906– 3x3x1/4 – 500/case

Plastic Shims are lightweight and are designed especially to meet the demands of the construction industry. They offer a high coefficient of friction and tested load capacity of 5,000 lbs. per square inch.
